

## ***Student Ministries***

**Chris Edwards, Minister to Students**

It's always good to get the groups back together for the beginning of a new ministry year. The college group has given me plenty of feedback that will lead to their Bible study and social calendar. Their group is growing steadily due to the reputation of West Side being a place where college students are taken care of and the new home grown members joining.

The Youth Group will be working under the theme of SEEK SPEAK SACRIFICE. We will spend the year exploring and learning how they truly enhance their relationship with God and the people they come in contact with daily.

Take Care,  
*Chris Edwards,*  
Minister to Students
